Course Drop Request

ZJUI_UndergradEd

1 分钟读完

Before you make a decision to drop a course, please understand that you are not encouraged to drop any required courses that will affect your progress towards graduation. In addition, you should follow the instructions below to drop a course that you enrolled already.

1. During the first week of the semester, you can drop a course by yourself through PeopleSoft.
2. If later than the first week, you must submit a request here by the end of 7th week of instruction in a semester. For Fall 2025, the deadline of drop course is **5PM, Nov 7, 2025.** There will be no W (Withdraw) recording on your transcript if your request is approved. If the course follows UIUC calendar (the course starts on August 25), the deadline is **Oct 17 2025 (UIUC time).**
3. If the course you want to drop is UIUC credit (click here to check, UIUC credit courses are highlighted in yellow), you must submit an additional request through UIUC COE portal with your UUC NetID by the above deadline. For the students who pursue ZJU single degree, you do not need to submit request to UIUC portal.
4. Please don't submit your request on last minute. You will be not be allowed to drop course after the deadline if nothing happens beyond your control.
5. For some 100- and 200-level courses, you need to go through the portal to drop the course if you accidently add the course and cannot drop it by self-service in PS system.
